1. I concur in the action requested by [] I see no objections to [] filling the authorized Operation Section slot. I think it would be a good idea if a person with a background that [] seems to have could be on the Detachment Staff. I have felt for some time that Detachment Commanders should have a staff officer with a photographic background as a Staff Advisor. [] assures me that in addition to his photographic and photo interpretation background, [] has extensive experience in the intelligence field.

2. I think considerable difficulty may be encountered in requisitioning [] since USAF is growing colder on each "name request." I believe to get this implemented as outlined, we will probably have to arrange through personal liaison with SAC to have [] fill a line request when made. I think we may find even more difficulty in getting a waiver on a second move within a fiscal year. If these two hurdles can be overcome, then I think we should take the action indicated.
